ABDUL REHMAN MALIK

COMPUTER SCIENCE UNDERGRADUATE · ASPIRING CLOUD & AI ENGINEER

abdulrehman.malikawan645@gmail.com | LinkedIn | 03085287578 | Islamabad, Pakistan

SUMMARY

6th Semester CS undergraduate at Bahria University with hands-on experience in SAP ABAP, Machine Learning, and Web Development. AWS-certified cloud enthusiast passionate about building AI-driven, scalable solutions and eager to apply technical skills in a dynamic environment.

EXPERIENCE

IT SAP Intern 07/2025 – 09/2025
Fauji Fertilizer Company Limited

- Supported SAP ABAP workflows, debugging, and system troubleshooting for enterprise ERP operations.
- Collaborated with IT team on business process analysis and ERP integration tasks.

Graphic Design Intern 06/2024
Innovista Rawalpindi

- Created social media graphics, branding materials, and marketing visuals using Canva & Figma.

EDUCATION

BSc Computer Science 2023 – Present
Bahria University, Islamabad

A-Levels 2021 – 2023
Private

CERTIFICATIONS

AWS Academy Cloud Architecting 2026
Amazon Web Services (AWS Academy)

SKILLS

LANGUAGES & WEB

Python | C++ | JavaScript | PHP | SQL | HTML & CSS

TOOLS & PLATFORMS

AWS | SAP ABAP | Arduino | Figma | Canva | Git | LaTeX | MS Office

DOMAINS

Machine Learning | Computer Vision | Cloud Architecture | Digital Logic Design

PROJECTS

AI Drowsiness Detection & Alert System

Real-time driver drowsiness detection using Computer Vision and ML to trigger safety alerts.

Python | OpenCV | Machine Learning

Student Management System

C++ application automating student records, academic data, and fee management.

C++ | OOP | File I/O

Line-Following & Obstacle-Avoiding Car

Autonomous Arduino car with sensors and motor drivers for real-time path-following and obstacle avoidance.

Arduino | Digital Logic | Embedded Systems

Food Reviews Website

Responsive review platform with star ratings, cuisine filters, and interactive UI components.

HTML | CSS | JavaScript

AI-Based Car Recommendation System

ML-powered system that clusters cars via KMeans and predicts user preferences using Decision Trees to deliver personalised recommendations.

Python | KMeans Clustering | Decision Trees | scikit-learn

Caps Brand — Mobile App UI/UX (Figma)

Designed a complete e-commerce mobile app for a caps brand in Figma, covering the full user journey from login and product browsing to cart and checkout.

Figma | UI/UX Design | Prototyping | E-commerce
